

Anglo Portuguese School of London

26th April 2021

At APSoL this week;

The children continue to explore and become acquainted with their new learning space.

The climbing frame is proving to be popular with the children, as they use their upper body strength to mount and then come down the other side.

In Literacy, we have continued to read 'Oi Frog'. Looking closely at rhyming words and how to we write plural words, when there is more than one object. The children have been making books, looking at the lifecycle of a frog and drawing observational pictures of the tadpoles in their tank.

In Mathematics, we have been learning about numbers beyond ten, specifically teen numbers, counting and matching quantity to numeral. When and where possible please support your children with counting backwards and forwards from 0 and 20.

Esta semana, em português, estivemos a explorar as características do ambiente à beira-mar em contraste com o campo e a cidade. Os alunos visualizaram o vídeo da história que estão a aprender e responderam a perguntas de interpretação.

Finalmente, puderam refletir em qual seria a localização ideal para morar de acordo com a sua preferência pessoal.

APSoL Early Years Team

Monday 3rd May:

Bank holiday - school closed

PE kits:

Children bring their PE kits on a Monday and take them home on a Friday. Children change at school for gym.

Reading books:

Children bring their reading book on Tuesday and take a new one on Friday. Thank you for reading with your children every day, the children are making such great progress!

Attendance:

In Reception, children learn vital skills that will enable them to form the foundations for a great education in later life. If children miss school regularly, especially in Reception, they will not only fall behind in reading and maths, but also in all the social emotional areas affecting their friendships and wellbeing. Please help us to ensure your child has a great start in their education by bringing them to school everyday and on time.
