- The easyness to access any of the staff school, specially the principal. The friendliness of the staff and the quick and efficient communication methods. When you enquire about a school who do not expect that the Principal contacts you so quickly and efficiently and does everything to answer your queries and makes sure you have the right support to help you with any decision. There is also a strong community link between parents.

- We chose APSoL for our child's primary education as we believe it is a real privilege to receive a high-quality bilingual education early in life. Feedback from other parents was very encouraging and so far it has matched our high expectations. Our child became truly bilingual in a matter of months and her intellectual development, literacy, curiosity and enthusiasm in all aspects of learning keep surprising us every day.

Even though Energy Kidz it is a completely independent entity from APSoL, we believe both breakfast and after-school clubs provided by Energy Kidz need a stronger structure. Energy Kidz does not provide any feedback on how children spend their time, food they have eaten or anything they may have potentially learned/activities done. I believe Energy Kidz would benefit from developing a structured way of interacting/communicating with parents/guardians about their children. The previous club used to provide daily feedback and do more learning activities for a better price.

After school club staff and activities needs improvement !

Thank you to all the parents who took part in this survey and for all your support! This is truly valued.

The following, are the school's responses to suggested areas for improvement.

Updates on building work	Principal has asked the DfE for an official update for the school community. Principal will communicate update on planning permission for the last phase of works and stages of renovation before the Easter break.
Energy Kidz club provision	Principal has asked club regional manager for closer monitoring of provision and providing staff training. The club will now be communicating with families via newsletter.
More physical activity	The school teaches a broad curriculum, children have bilingual physical education lessons with their teachers following Striver PE scheme. The school networks with external providers such as dance and futsal teachers to encourage local adherence to active clubs. Until the final phase of building works is complete, the school has limited facilities which it can lease to external providers. However, due to demand, the school is considering offering one additional multi-sports club on site on a Friday, from next term.
Portuguese learning and development	The Portuguese teacher will be facilitating meetings with parents to discuss pupil progress and achievement. The Portuguese team will also be providing age related expectations for Portuguese.
More clubs	As soon as the renovation works are completed, the school will be offering on site a wider choice of clubs including performing arts club, multisports club and wrap around care provision (7:30-6pm) After school clubs will operate from 4-5pm on site. Interested companies at present include: STEMS (engineering), Gems performing arts, fit for sport
Individual music tuition	The school has adopted an inclusive and broad music learning model for the whole school, following the Wandsworth Music Service principles where <u>all</u> children are exposed to a rich music curriculum and opportunities to learn different instruments. All children will learn to play a different instrument every year from Year 1 to Year 6 developing an appreciation for different instruments. 1:1 music tuition would mean that children would have to miss other curriculum learning, so this is not a model the school favours. However, where music talent and appreciation are noted, the music teacher will be able to liaise with the families and promote opportunities where these children can further develop this. In future, after completion of building works, additional specific group instrumental teaching will be considered based on demand.
Security around public green space	All parents concerned with public area safety should communicate their concerns directly with the council. The school will communicate specific concerns that are communicated directly to the school that impact on children's safety at school.
